44k 444K-4x4-L

The 444K product range supports the switching and distribution of 18Gbps HDMI video. This includes video resolutions up to 4K and 2K with a refresh rate of 60Hz, together with colour sub-sampling of 4:4:4 for YPrPb, totaling 18Gbps and HDCP 2.2 compliant

The 444K-4x4-L is a professional 18Gbps flexible HDBaseT matrix capable of selecting between 4 different HDMI devices to 4 local HDMI displays and simultaneously 4 HDBaseT receivers/displays located up to 70m from the unit. Flexible control options include front panel, infra-red, RS232 and an internal web-browser configuration.

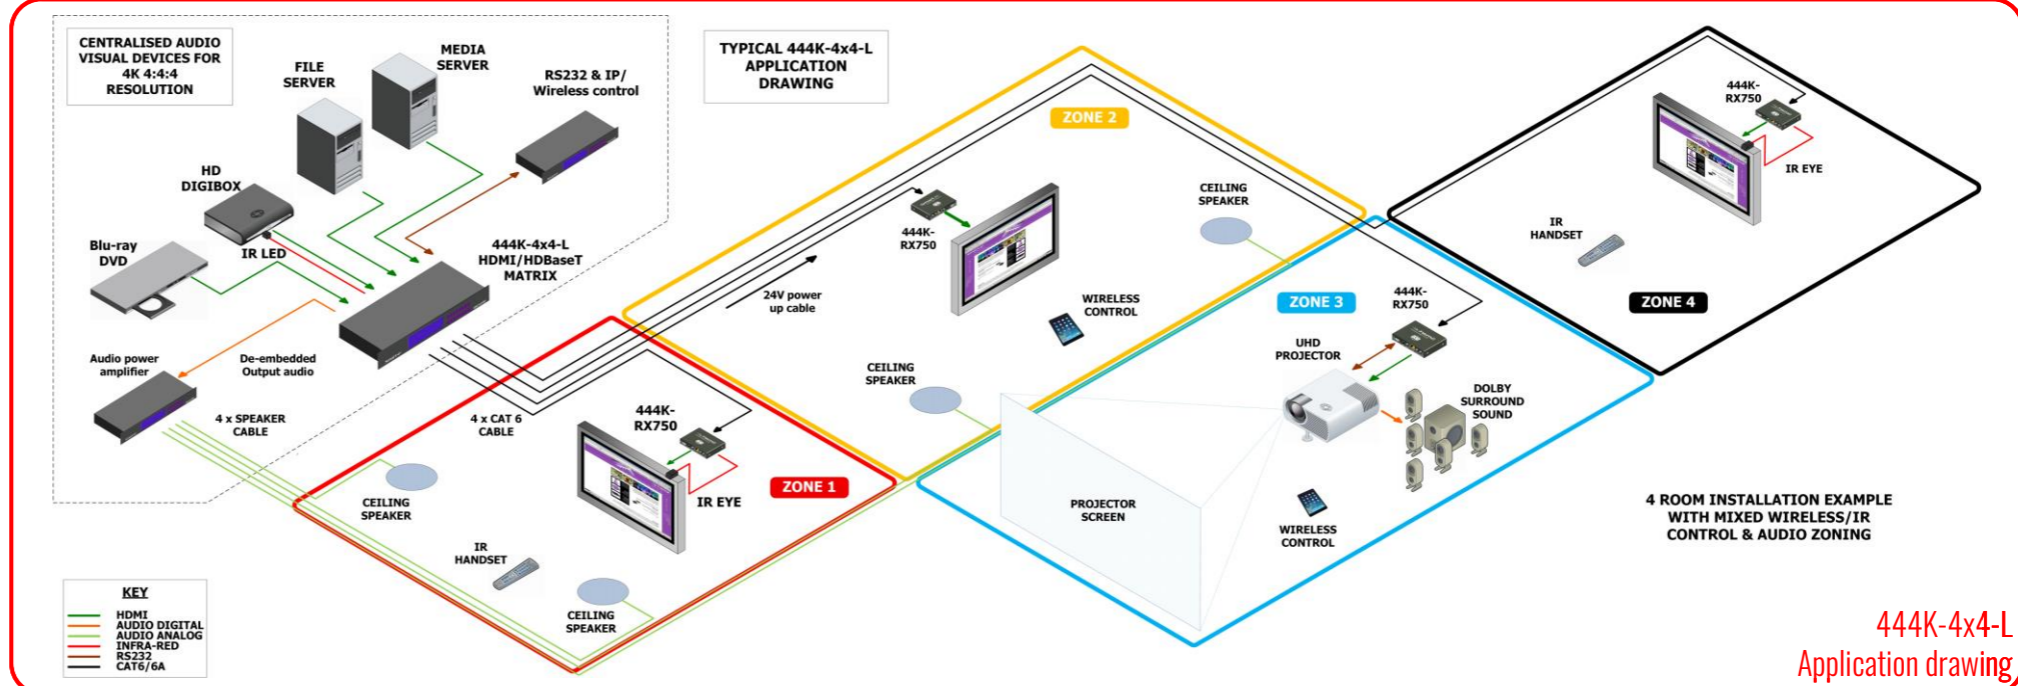

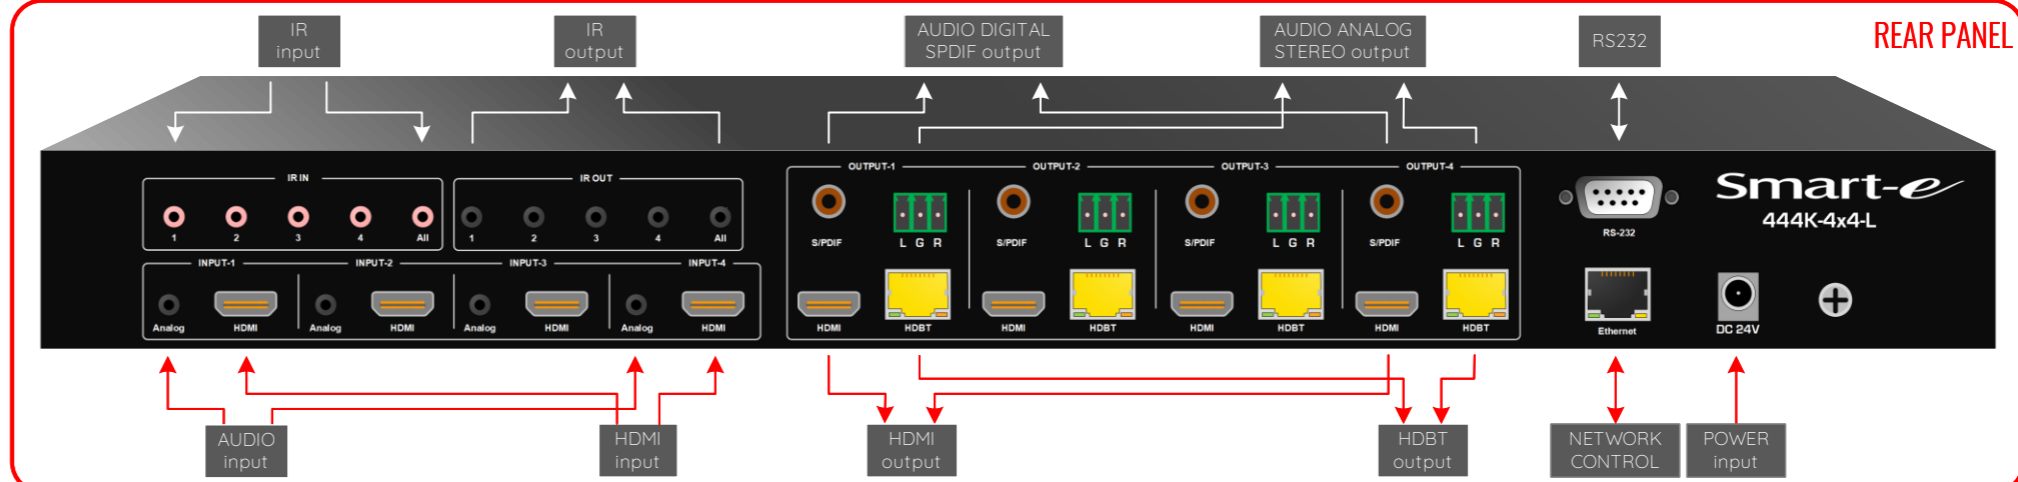

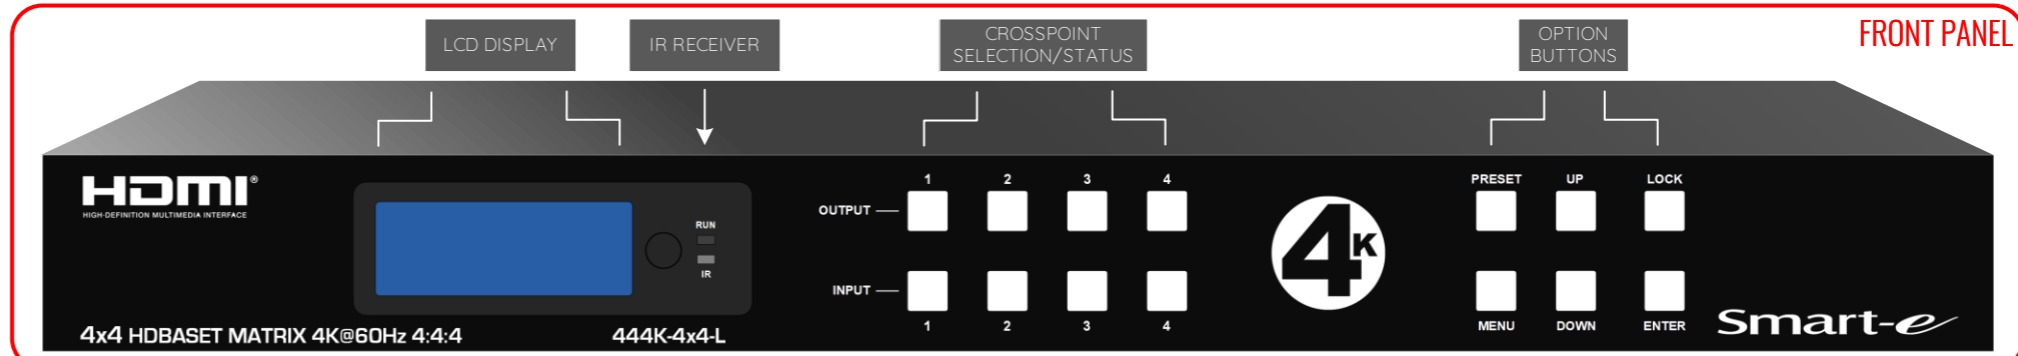

Each output also provides an individual de-embedded audio connection for both analogue stereo and digital S/P DIF. Audio embedding into each HDMI input feature is provided via individual analogue stereo mini-jack connections.
